WEPOS Stone Floor Gloss Care

Description

Concentrate to care for and replenish the shine of hard, absorbent natural and artificial stone floors – without polishing. Forms a fine but hard-wearing surface film. Colour and structure are refreshed, the coating is easier to maintain, intensive and more dirt-repellent. For initial treatment care and for forming walkways.

Effect:

For maintenance and restoring lustre of hard, absorbent natural and artificial stone flooring. Forms a fine, but hard-wearing surface coating with particularly good adhesion and resistance to water. Colour and structure are refreshed, the coating becomes easier to maintain, less sensitive and more dirt-repellent. Also suitable for initial treatment of polished, rough and dull surfaces.

Application:

For all hard, but absorbent surfaces made of natural and artificial stone, marble, terrazzo, travertine, Jura stone, Solnhofen slabs, slate, unglazed ceramic tiles as well as clinker and clay bricks. In inside and outside areas for wall and floor surfaces, windowsills and tables. For initial care of polished or dull coverings, pathways and general maintenance.

Direction of use:

Initial care: Where appropriate, thoroughly remove old wax and protective layers with Wepos Grease, Wax and Dirt Remover. Let surfaces dry completely. Evenly apply Wepos Stone Floor Varnish Care with a clean cloth, sponge or lambskin wiper. Do not rub, just let it dry. No polishing required.

General maintenance: Add 30 mL to a bucket of warm water. Mix well. Clean floor with cleaning cloth as usual. Do not walk on wet surface.

Important:

In cases of surfaces with low absorbency and in order to avoid streaks, use Wepos Stone Floor Varnish Care diluted 1:1 with water. Store product in cool and frost-free place.

Technical Informations

- Density: 1,03 g/ml
- PH: 8,0 – 8,5
- colour: milky
- smell: flowery

Safety instructions:

Keep out of the reach of children.

Packing unit

1000 ml-bottle (4 per box)
